They were so flexible and gracious taking care of my aunt dying from cancer. I really do not know how I would have made it through without them. They were family. It went great for us as an experience. They gave comfort and support throughout the process and even came to calling hours which meant so much to us. Thank you is not enough!

I used Senior Helpers for my father.. They did meal preparation and ran errands for food and medications. They also provided light housekeeping including laundry, assistance with bathing and changing catheter bags. They provided outstanding companionship. They scheduled us when we needed them and we never had any issues. They reported his condition to me and I made requests to them, all seamlessly. Every effort was made to send the same caregivers regularly and the caregivers were terrific. They provided me with peace of mind, knowing that my father was being taken care of very well.

From the beginning, Senior Helpers were concerned as to what care my wife needed and was able to provide that care. They are always concerned with how my wife feels about her care. They have been great!

When I spoke with Susan, the owner I knew this was the right fit for us. She spent time talking to my husband which showed so much respect for him. I knew she would find the best companion for him and she did!
